A wide, white sandy beach curves along the edge of the island, meeting the clear turquoise water of the ocean. The water transitions from a light blue near the shore to a deeper blue further out. The sky is a pale, clear blue. The entire image is framed by a thin yellow border.

EMBUDHOO  
YOUR PRIVATE DESERTED ISLAND

---

Owned by Coco Palm Dhuni Kolhu, our deserted private  
island is less than 10 minutes away from the resort

---

---

Home to a single traditional hut designed for an intimate getaway, whether it's for a day of picnics and snorkelling, a romantic BBQ dinner, or the full Robinson Crusoe cast away overnight experience.

---

## WILDLIFE CONSERVATION

---

Coco Palm Dhuni Kolhu is a green sea turtle nesting site, and we work to protect and record the nesting and hatching habits of these turtles.

Our Marine Biologist educates our guests on how to interact with the marine wildlife, as well as how to photo ID turtles, manta rays, and sharks.

This information is sent to our conservation partners such as the Olive Ridley Project, Shark Watch, and Manta Trust to better understand the behaviours and promote the conservation of these species.

---

## TURTLE RESCUE CENTRE

---

The resort is also home to the first Turtle Rescue Centre in partnership with the Olive Ridley Project, with a resident veterinary surgeon looking after injured turtles.

With 6 rehabilitation tanks and a fully-equipped surgical clinic, the ORP Marine Turtle Rescue Centre provides veterinarian care and rehabilitation to injured marine turtles rescued across the Maldives. With injuries too severe for immediate release, many of the turtles would almost certainly not survive without treatment.
