SAVE THE DATE!!! AUGUST 12TH 2026

Jumeirah Mallorca invites guests to witness a once-in-a-lifetime event: a total solar eclipse from its spectacular Mediterranean clifftop setting within the UNESCO-listed Serra de Tramuntana, the hotel presents Celestial Celebration featuring exceptional gastronomy, live entertainment, and expert-guided telescope viewings. With limited availability, partners are encouraged to contact the hotel to explore bespoke stay options.

DIRECTLY WITHIN THE PATH OF TOTALITY

The area where Jumeirah Mallorca is located within the eclipse's path of totality, meaning observers will witness the rare phenomenon of a full solar eclipse. The hotel's location enjoys the maximum duration of totality, which is estimated at around 1 minute and 36 seconds.

A SUNSET ECLIPSE

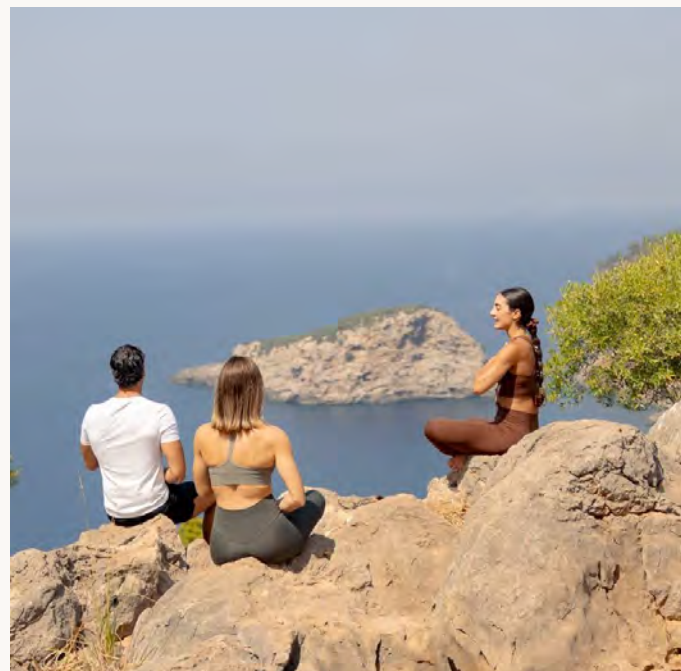

The eclipse occurs close to sunset over Mallorca. The Sun will be about 10° above the horizon at the start and about 4° above at the end. Coastal views from here put you in a prime position for an uninterrupted western horizon, making for a breathtaking "sunset eclipse" - a rare and visually dramatic celestial event.

CLIFFTOP CLEAR SKIES

Set high in the UNESCO Tramuntana mountains, the hotel benefits from elevated views and the crisp, clear mountain air, offering an unobstructed panorama of the sky and horizon. Mallorca enjoys some of the clearest skies along the eclipse path and the island reputedly has low cloud cover rates in August.
