MALLORCA

Celestial Celebration 12 August 2026

The Solar Eclipse

## JUMEIRAH MALLORCA

### *The Vantage Point in the Mediterranean*

Jumeirah Mallorca will not simply provide a breathtaking vantage point for the eclipse, on 12 August, it will transform into an immersive, four-day celebration built entirely around this once-in-a-lifetime celestial event. From sunrise to moonlight, every aspect of the guest experience will be curated to capture the magic, from eclipse-inspired gastronomy to extraordinary entertainment.

### DIRECTLY WITHIN THE PATH OF TOTALITY

The area where Jumeirah Mallorca is located within the eclipse's path of totality, meaning observers will witness the rare phenomenon of a full solar eclipse. The hotel's location enjoys the maximum duration of totality, which is estimated at around 1 minute and 36 seconds.

### A SUNSET ECLIPSE

The eclipse on 12 August occurs close to sunset over Mallorca. The Sun will be about 10° above the horizon at the start and about 4° above at the end. Coastal views from here put you in a prime position for an uninterrupted western horizon, making for a breathtaking "sunset eclipse" - a rare and visually dramatic celestial event.

### CLIFFTOP CLEAR SKIES

Set high in the UNESCO Tramuntana mountains, the hotel benefits from elevated views and the crisp, clear mountain air, offering an unobstructed panorama of the sky and horizon. Mallorca enjoys some of the clearest skies along the eclipse path and the island reputedly has low cloud cover rates in August.

*Grand Eclipse Reception*

ON THE NIGHT OF THE ECLIPSE

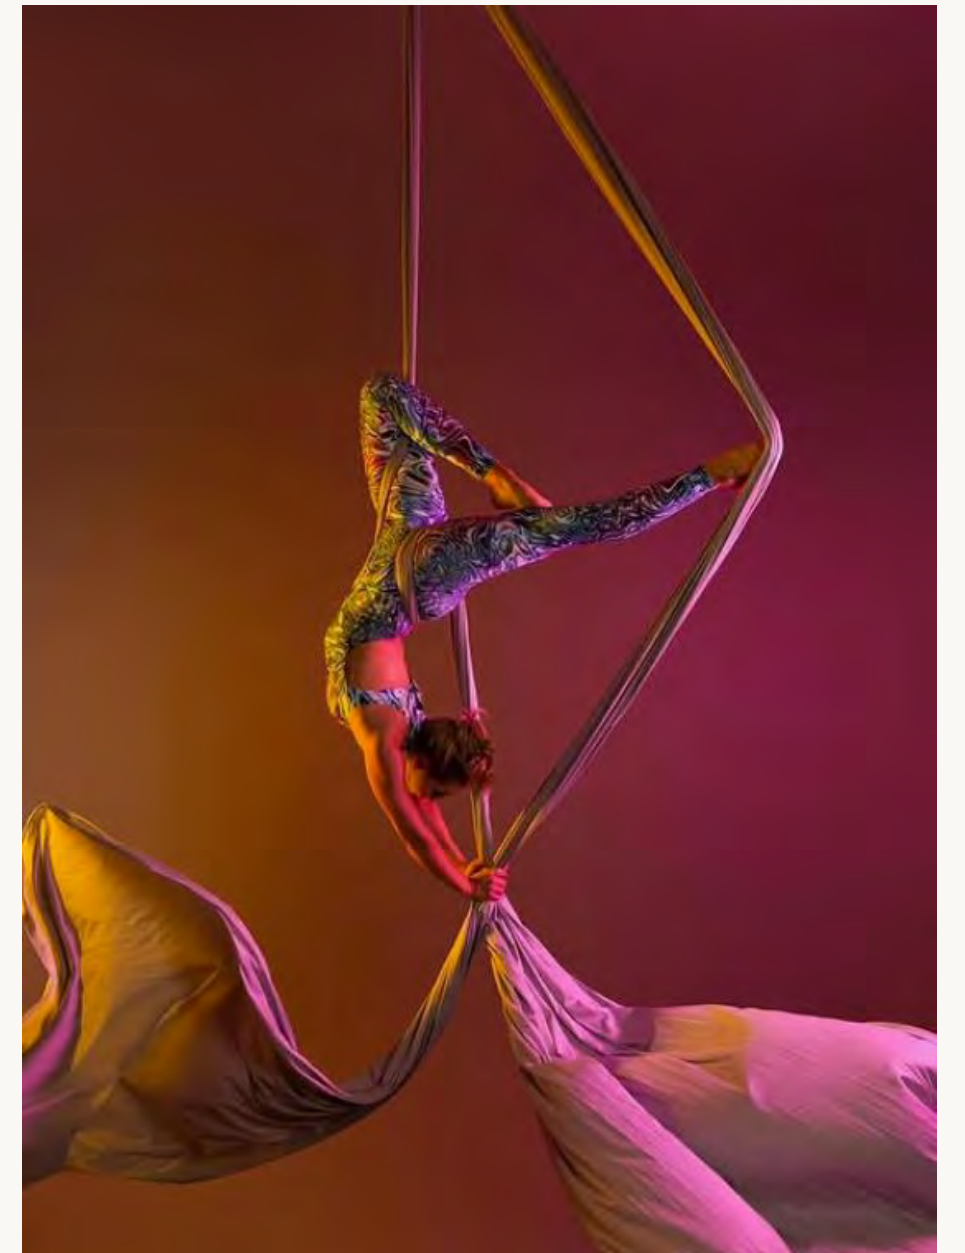

The journey begins 100 metres above sea level on the sweeping terrace beneath Cap Roig Restaurant, with a **lunar-themed cocktail reception**.

There will be a once-in-a-lifetime celebration blending world-class gastronomy with spectacular live entertainment under the stars.

Your evening begins with a Pre-Eclipse reception on the terrace to set the mood with dazzling performances and panoramic vistas frame the approaching eclipse in all its breathtaking glory.

As golden-hour light caresses the mountains and sea, anticipation builds and the partial eclipse commences

When the celestial moment arrives, raise a glass beneath the darkened sky and revel in an atmosphere crafted for the most discerning of guests.
